AMPM
AIRCRAFT MISSILE PARTS MFG.

Aircraft Missile Parts Manufacturing (AMPM) was founded in California in 1976 and has been manufacturing quality aerospace fasteners for over 35 years. In recent years, AMPM began concentrating its fastener production on several specialty products that include threaded taper pins, taper pins, keys, threaded rod, dowel pins and clevis pins. Along with these specialty fasteners, AMPM also supplies a broad range of common aerospace fasteners… both standard and made to print

In early 2014, AMPM was acquired by **Alvord-Polk Inc.** and relocated to Millersburg, PA. Alvord-Polk Inc. is known throughout the aerospace industry as one of the best sources for quality reamers and cutting tools. AMPM joins the other Alvord-Polk divisions, Morton Machine Works and Brush One, in supplying quality components to both the aerospace industry and also to a broad range of commercial customers throughout the world.

Aircraft Missile Parts Manufacturing is ISO9001:2008 certified and remains committed to providing its customers with a premier quality product at a competitive price. Contact our experienced support staff on your next fastener requirement… we want to work with you!
